## Digital Information Command Post

BASIC COMMAND FUNCTION:

### INFORMATION ACQUISITION

Without accurate information, emergency responders can't make informed decisions.

Through a simple intuitive computer interface responders can rapidly monitor, control or access critical information resources with the touch of a button.

Regardless of the size of your organization or whether the organization has multiple divisions, or multiple departments, DigitalCP can be configured to fit the unique and changing needs of your organization.

DigitalCP is fully customizable, making it easy to integrate with your own applications and information resources including:

- CAD Systems
- Emergency Lights
- Vehicle Electrical Systems
- GPS/GIS
- EMS Protocols
- Vehicle Mounted Cameras
- Remote Cameras
- Preplans
- Research Materials
- Internet/Intranet
- Personnel Accountability
- Electronic Incident Reporting
- Emergency Scene Recording
- Drug References
- Haz-mat References
- Other customized Applications
